DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Daniel P. Maguire on July 6, 2004.

The application has been amended as follows:

a. Claims 12 and 13 have been cancelled.

Allowable Subject Matter

- 2. Claims 1-10 and 14-21 are allowed.
- 3. The following is an examiner's statement of reasons for allowance: none of the prior art of record are considered to teach or suggest the fuel cell assembly of claims 1-10 or 15-21 or the method of maintaining electrical contact in the fuel cell assembly in claim 14.

The term bipolar separator plate in claims 1-10 and 14-21 is limited to the definition set forth in applicant's arguments, in particular to a: "Conductive plate in a fuel cell stack that acts as an anode for one cell and a cathode for the adjacent cell. The plate may be made of metal or a conductive polymer (which may be a carbon-filled

Application/Control Number: 10/068,154

Art Unit: 1745

composite). The plate usually incorporates flow channels for the fluid feeds and may also contain conduits for heat transfer."

As reasoned in Applicant's arguments the support member in the prior art of Fuglevand is not conductive and thus is not construed to be a bipolar separator plate as defined above.

None of the remaining prior art of record is considered to teach or suggest the invention of claims 1-10 and 14-21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gregg Cantelmo whose telephone number is (571) 272-1283. The examiner can normally be reached on Monday to Thursday from 9 a.m. to 6 p.m. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Pat Ryan, can be reached on (571) 272-1292. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306. FAXES received after 4 p.m. will not be processed until the following business day. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published
